“A great deal of research has been carried out with regards to musical activity and the brain and it is now evident that music-making, singing and dancing aids the general development and well-being of our very young.” (Linda Bance, Music in the Early Years, Who? What? Why?)

Participation in group musical activities has been shown to contribute to the development of:

- **Social and emotional skills**
- **Language and communication skills**
- **Mathematical and special awareness skills**
- **Physical agility**
- **Imagination and creativity.**

What to expect in a Crescendo Music session?

- *Small class sizes*
- *Experienced, knowledgeable and enthusiastic teachers*
- *Exciting and engaging activities within a calm environment that promote musical and social-emotional development*
- *Specialist planned activities that enhance cognition, language and physical development, with the flexibility to adapt to the needs of the individual children present.*
- *A friendly, welcoming atmosphere*
- *Lots of movement and musical games*
- *The old favourites as well as carefully chosen songs and rhymes to support the flow of sessions as well as your child's current interests*
- *Free percussion exploration as well as structured rhythmic games*

WHY MUSIC?
